

BetterResources — Use of Proceeds (Seed \$2,000,000)

Date: September 2, 2025

Prepared for: Prospective Seed Investors

Company: BetterResources

Overview

This document details how **\$2,000,000** in seed capital will be allocated over ~16–18 months to achieve MVP scale in Arizona, expand to multi-state coverage, and reach **\$250k+ MRR** run-rate while building a compliant, secure platform.

Summary Allocation

Category	% of Round	Amount (USD)	Key Line Items	Primary KPIs Unlocked
----------	------------	--------------	----------------	-----------------------

Product & Engineering	35%	\$700,000	iOS/Android dev, backend & data platform, FHIR/EHR integrations, UX, QA	AZ MVP → multi-state V2, D7/D30 retention, app stability (crashes <0.5%)
----------------------------------	------------	------------------	---	--

Go-to-Market (Sales & Marketing)	25%	\$500,000	2 AEs, community marketing, creator partnerships, events, sales tools (HubSpot, outreach)	200 clinic logos, \$250k MRR run-rate, CAC payback <6 months
---	------------	------------------	---	--

Data Operations (Verification)	15%	\$300,000	Listings acquisition/QA, partner data fees, change-monitoring, moderation	95% data freshness in target states, time-to-help <5 minutes
---------------------------------------	------------	------------------	---	--

Compliance & Security	10%	\$200,000	HIPAA readiness, SOC 2 Type I, pen-tests, security tooling, legal	SOC 2 Type I report, BAAs with partners
G&A / Operations	10%	\$200,000	Legal & accounting, finance ops, admin, workspace, insurance	Clean close, monthly reporting, audits prep
Contingency / Buffer	5%	\$100,000	Unforeseen costs, vendor deltas, hiring slippage	Runway protection (≥ 2 months)
Total	100%	\$2,000,000		

Notes: Amounts are pre-tax and exclude potential interest income. Vendor quotes and salaries will be finalized during contracting.

Detail by Category

1) Product & Engineering — \$700,000 (35%)

- **Headcount (core):** Lead iOS/Swift (FTE), Backend/Data Engineer (FTE), UX/Design (contract→FTE), QA (contract).
- **Build:** resource navigator, triggers & coping tools, referral workflows (clinic portal), offline packs, accessibility (WCAG 2.2 AA).

- **Infra & tools:** cloud (VPC, databases, observability), CI/CD, crash analytics, feature flags.
- **Milestones:** AZ MVP (90 days); 5-state coverage (9 months); national ingestion pipeline (18 months).

2) Go-to-Market — \$500,000 (25%)

- **Sales:** 2 Account Executives (OTE-aligned), founder-led enterprise motion, sales enablement materials & demo instances.
- **Marketing:** community partnerships (campuses, clinics), creator collabs, events, paid pilots, content (case studies), localization (ES).
- **Tooling:** CRM, outbound automation, attribution, website revamp & landing pages.
- **Milestones:** 10 pilot clinics (90 days); 75 contracts (9 months); 200 logos, \$250k MRR run-rate (18 months).

3) Data Operations — \$300,000 ()
