

Spring 2026 Project Management Internship Syllabus

BetterResources Project Management Internship

Semester Dates: February 2026 – May 15, 2026

Time Commitment: 10 hours per week

Format: Remote / Hybrid (as assigned)

Supervisor: Founder & Project Leadership Team

Course Description

This internship provides hands-on experience in **project management within a live startup environment**. Interns will support the development, testing, scaling, and resource management of a mental health technology platform. Interns are expected to actively participate in team meetings, manage tasks using professional startup tools, and contribute meaningfully to growth, downloads, and expansion efforts.

This internship emphasizes **accountability, collaboration, technical literacy, and real-world startup execution**.

Weekly Time Commitment (10 Hours Total)

Required Weekly Schedule Breakdown

1. All-Team Founder Meeting

- **Day:** Thursday
- **Time:** 7:00 PM
- **Hours:** 1 hour
- **Purpose:** Company updates, priorities, roadmap alignment, leadership direction

2. Weekly All-Team Group Meeting

- **Hours:** 2 hours
- **Day/Time:** TBD

 - Update Growth Tracker
 - Complete weekly group assignment
 - Cross-team collaboration and accountability

3. Platform Review & Task Updates

- **Hours:** 1 hour
- **Tasks:**
 - Review Monday Dev Notes

- Update Monday Dev Board
- Document progress, blockers, and completed tasks

4. Bug Testing & Follow-Up

- **Hours:** 1 hour
- **Tasks:**
 - Test assigned features
 - Document bugs clearly
 - Follow up on fixes with dev team

5. Resource Management

- **Hours:** 1 hour
- **Tasks:**
 - Research, organize, and manage mental health resources
 - Ensure accuracy, accessibility, and relevance

6. Project Work

- **Hours:** 3 hours
- **Tasks:**
 - Assigned individual or team projects
 - Semester-long project milestones
 - Growth, scaling, or operational initiatives

Required Platforms & Tools

Interns are expected to **review and learn each platform in detail**. Training resources will be provided, but independent learning is required.

- **Firebase** – backend data management
- **Monday Dev** – task tracking, documentation, growth tracking
- **Xcode** – app testing and development environment
- **GitHub** – version control and issue tracking
- **Google Drive** – shared documentation and collaboration
- **Apple Developer Platform** – app distribution and testing

Grading Breakdown (200 Points Total)

1. Attendance & Participation – 20 Points

- Attends all required team meetings
- Attends all assigned group meetings
- Documents work consistently on Monday Dev

2. Understanding of Startup Tools – 20 Points

- Demonstrates working knowledge of all required platforms
- Uses tools correctly and independently

3. App Download Growth – 40 Points

- Minimum benchmark: **10,000 total downloads**
- Credit based on documented contribution to growth strategy

4. Resource Management – 20 Points

- Accurate, organized, and up-to-date resources
- Demonstrates understanding of mental health resource systems

5. Scaling Project – 20 Points

- Contributes to scaling the app to **at least one additional U.S. state**
- Includes research, outreach, or operational support

6. Semester Project – 80 Points

- Completion of a major semester-long project
- Includes planning, execution, documentation, and final presentation
- Must demonstrate project management skills and impact

Expectations & Professional Standards

- Minimum **10 hours per week is required** to pass
- Missed meetings or undocumented work may result in point deductions

- Interns are expected to communicate proactively and professionally
- This internship mirrors real startup expectations — **initiative matters**
